Bioinformatics Student @ VU | Fullstack web developer | Blazor |
ASP.NET | SQL Server | Bootstrap | Reactjs
Rawalpindi, Punjab, Pakistan

Summary

I am currently pursuing a Bachelor of Science in Bioinformatics at
VU, while actively growing Freelance Full-Stack Web Developer on
Upwork.

Throughout my career, I have gained practical expertise in
software development and web development, working with modern
technologies, database management, communication, analytical
skills, and programming concepts. My academic journey has
provided me with a strong foundation in bioinformatics and scientific
principles, including DNA, PCR techniques, biochemistry, database
systems, computational design, and research methodology.

I have hands-on experience with various programming languages,
frameworks, and technologies, including:

ASP.NET, MVC 5, Web Forms, .NET Core, C# .NET
SQL Server, Database Management Systems
ReactJS
Material Design
Bootstrap
Azure for Cloud Computing
Bioinformatics Software & Computational Tools
Python
SPSS IBM Statistics
HTML, CSS, JavaScript
Linux Essentials
Report Writing

This combination of technical expertise, hands-on experience, and
academic knowledge equips me with a unique interdisciplinary
approach to problem-solving, bridging the gap between biology,
software development, and web technologies.
